## NEW REGIME IS SOCIALISM CHINK REBELS

Express Great Confidence of the Early Overthrow of the Ancient Manchu Dynasty

### EARLY BATTLE EXPECTED IN PROVINCE OF HUNAN

The Government Handicapped By Empty Treasury Is Moving Energetically Upon the Revolutionists

SAN FRANCISCO, Oct. 16.—A proclamation announcing that the new Republic of China would assume all debts contracted for and by the Manchu dynasty, that all treaties would remain effective, that foreign concessions would be respected and all foreigners protected during the period of hostilities, was made public here today.

The proclamation is signed by Li Yuan Hung, commander of the citizens' army of central China. The document further stated that foreign troops who assisted the Manchu dynasty will be treated as enemies, and any means negotiated with the Manchu government after the issuance of a proclamation will not be considered or acknowledged.

From the members of the Young China association of this city, comes news today that the government of the new republic is in favor of the government ownership of common carriers, government control of the banks and other public facilities. While the local Chinese are loath to describe themselves as socialists, the outline of the proposed system of government given by the members indicate that it will be socialistic in many respects.

**Great Battle Expected.** SAN FRANCISCO, Oct. 16.—Sixty-five thousand Chinese revolutionists have been ordered from Wu Chang and Kai Pong to intercept the imperial soldiers enroute from Peking to the province of Hunan, according to a cablegram received late tonight by The Free Press, a local Chinese paper. Twenty thousand Manchu troops have been sent against the revolutionists from Peking and an engagement is expected within two days. This engagement is regarded as being of great importance. If the revolutionists are successful, it is expected that Canton will fall shortly afterward.

The cablegram received by The Free Press says that 3,000 imperial soldiers have been ordered to the end of their regime. It says that Han Yang arsenal is in the hands of rebels, and is rushing war day and night, getting out ammunition and arms for the use of the rebel army. "Two imperial warships were destroyed yesterday by the guns of the forts in Wu Chang," it says. "This makes three warships destroyed by the revolutionists since the outbreak."

**Government's Strong Move.** PEKIN, Oct. 16.—Simultaneously with the acceptance today by Yuan Kai of the post of viceroy in the province of Hui and Hunan where he is directed to reestablish imperial authority immediately, the Chinese government is showing remarkable activity in the face of a depleted treasury. The government seems to realize the necessity of crushing rebellion and is dispatching an army to the scene of the trouble as rapidly as possible.

The fact that all women and children are leaving Hankow indicates that the insurgent forces are well armed, and well ammunitioned from the arsenal store and preparing to resist the imperial army. The American consul at Hankow, Roger S. Greene, sent a message to Peking requesting that he be kept informed as to the movements of the army southward and the approach of troops which are being mobilized in Hunan province.

The reinforcement of the American legation guard by a hundred men who are proceeding from Manila is taken as indicative of the seriousness of the situation. It is not believed, however, that the legations will be subjected to more than ordinary inconveniences. General Yen Tehang, minister of war, who will have chief command of the government troops is a small, thin, quarrelsome Manchu German and Austrian officers who hold the general's confidence report that he has the greatest faith in his troops.

According to Chinese people generally, the Manchus were tolerable when they protected the country but are now worthless. The vast body of China's population in general sympathizes with the rebels. The situation depends on money and it is admitted that the ready funds of the imperial government are low. Further loans by foreign bankers have been refused. The question appears to be not which army is the strongest but which one is the less feeble, and less disorganized.

## PROGRESSIVES IN CONFERENCE FORM PARTY

The Boom of La Follette for President Is Given Its Formal Start

### STATE ORGANIZATIONS ARE RECOMMENDED

The Convention Was Distinguished by the Absence of Cummins and Borah

CHICAGO, Oct. 16.—Two hundred progressive republicans in their first national conference endorsed the candidacy of United States Senator Robert M. La Follette for nomination for president in 1912 today, and declared for the direct primary as a means of expressing the presidential choice. The endorsement came in the shape of resolutions framed in part by former Secretary of the Treasury Jas. T. Garfield, who as was held by delegates, appeared as expressing the views of Theodore Roosevelt, who, it was feared, would not consent to a declaration in favor of any individual.

These resolutions followed a day of La Follette enthusiasm, in which his name was repeatedly cheered. The resolutions were framed by a subcommittee of five from the committee of thirteen, and revised by former Secretary Garfield and Congressman Irvine L. Leuro of Wisconsin.

As adopted, they said in part: "We favor the ascertainment of the choice of republican voters as to candidates for president by direct primary vote, held in each state pursuant to its statutes, and where no such statute exists, we urge that the republican state committee provide that the people be given the right to express their choice for president."

Following this opening paragraph came an eulogy of La Follette, concluding: "This conference endorses him as its candidate for the republican nomination for president, and urges that in all states organizations be formed to promote his nomination."

Wisconsin, Minnesota and Nebraska sent the largest delegations out of Illinois. A national organization was outlined. Popular subscriptions as a means of financing this and future campaigns came as a suggestion from Rudolph Spreckles, of California, and was adopted by the committee.

"The people must be made to understand that this is their fight," telegraphed Spreckles. "Let the average citizen's contribution take the place of corporate contributions and you will have an organization that will be free to serve the best interests of the people. Business prosperity depends upon the confidence of the people, and this can be insured by giving the people a voice in their government."

Disappointment was expressed at the absence of Gifford Pinchot, who is on his way from Alaska. Senator Borah of Idaho and Senator Cummins, of Iowa, were expected to be present, but at the last minute they telegraphed that they were unable to come. Among members of the committee on resolutions were Freeman Older, of California, and O. L. Geer, of Arizona.

**ST. LOUIS CHAMPIONSHIP.** Nationals and Americans Will Settle the Question

ST. LOUIS, Oct. 16.—The Nationals beat the Americans today in the third game for the city championship by a score of 9 to 5. The Americans used three pitchers. The teams will play a double-header tomorrow, winding up the series.

**POLITICAL WRITER DIES.** Louis S. Whitcomb, Long Connected with San Francisco Press

SAN FRANCISCO, Oct. 16.—Louis S. Whitcomb, a pioneer newspaper writer of California, died here today of heart failure after an illness of five days. Whitcomb was an authority on California politics, and was the political editor of a local paper for eighteen years. He was born in Boston, Mass., was educated at Harvard, and was unmarried.

**STRIKE SETTLED.** All the Men at Cananea Went to Work on Sunday Night

CANANEA, Oct. 16.—The strike at the Cananea Consolidated mines was settled Sunday morning, and on Sunday night all the men went to work. The men, it was found, were willing to return to work before Sunday, but the company wanted first to ascertain whether the men would remain at work, and kept the mines closed until a pledge to this effect was given.

The miners have appointed a general committee to which all grievances in the future will be referred. The company made no concessions.

## AN ATTEMPT TO DYNAMITE PRESIDENT'S SPECIAL TRAIN

Night Watchman Caught Two Men Planting Thirty-six Sticks of Explosive in Viaduct Through Which the Train Was to Pass Shortly

### MISCREANTS ESCAPED AFTER A REVOLVER DUEL

SAN FRANCISCO, Oct. 16.—A report was received here today by officials of the Southern Pacific from C. L. Brown, section foreman for the company at Naples, Calif., that gives details of the discovery of thirty-six sticks of dynamite under Captain viaduct, twenty miles north of Santa Barbara, several hours before President Taft's train was scheduled to pass over the bridge en route to Los Angeles this morning.

The dynamite was found after a watchman had engaged in a revolver fight with two men who escaped. The dynamite was found at 2 a.m. and the president's train passed over the bridge at 4:51 a.m.

The night watchman saw two men on the bridge shortly before two o'clock. They were at the opposite end of the thousand foot span, and they ran when ordered to halt. The watchman ran across the bridge, firing several shots, which were returned by the fugitives. After the pair had escaped in the darkness the watchman returned to the bridge and made a careful investigation.

Near the center of the span, lodged in one of the supports, he found thirty-six sticks of the explosive, with a ten foot fuse attached to one of the sticks. He left the stuff untouched, and going immediately to Santa Barbara, notified the officials.

Sheriff Wines, of Santa Barbara county, went immediately to the scene, and removed the dynamite. Brown reported having seen two men get off the train on Saturday night at Naples, and go toward the viaduct. No other trace of the men was found.

Police and sheriffs all along the coast are now on the lookout for the men, but have only the meager description furnished by Brown.

**Secret Service Men Called Out.** SANTA BARBARA, Oct. 16.—Several secret service men are expected to arrive tonight, to assist the local authorities in attempting to unravel the mystery surrounding the finding of a quantity of dynamite at the Canaan bridge, twenty-six miles from here, at 1:30 this morning. Investigation so far has failed to show that the dynamite was intended to wreck the president's train, although no other theory more likely than that has been advanced. Forty-one sticks of dynamite are in the possession of the sheriff.

The explosive was found in two sections, with about ten feet of fuse attached, which would enable the men igniting it to get out of harm's way before the explosion. The fact that several trains were scheduled to pass over the bridge before the special arrived, also that the presidential special was running as the second section of the Lark, which is a regular passenger train, makes it extremely doubtful whether the presidential train was the object. The police have a fair description of the two suspects who the watchman says he saw running away.

E. E. Calvin, vice president and general manager of the Southern Pacific, tonight wired Sheriff Stewart that he had offered a reward of \$5,000 for information leading to the arrest of the alleged dynamiter or dynamiters.

every, seemed to have less general acquaintance with the facts which the trial is expected to bring out, therefore answered more satisfactorily the questions by both sides. Attorney Darrow did most of the questioning. Le Comte Davis, who is the best orator of the defense's staff, chimed in whenever arguments over the questioning waxed warm.

Nelson's wife was the first spectator to reach the courtroom this morning. She came an hour before court convened and sat around facing the door of the rooms where her husband and the other veniremen are confined.

The sudden turn the trial took today came as a surprise to everybody, and it seems that one juror every several days will be a good average. Nelson had been examined two full days and a part of another before his ineligibility was determined. It is considered highly probable that at least one of the two men temporarily accepted will be one of the final jury, although the defense may see fit to further question them, and then exercise a challenge.

## JUROR NELSON ESCAPED DUTY DEFENSE WINS

Talesman Admitted That It Would Take Evidence to Remove Bias Against the McNamaras

HAD HIS OWN IDEAS ABOUT TIMES EXPLOSION

Defense Evidently Believes Membership in Merchants and Manufacturers Ass'n Disqualifies

LOS ANGELES, Oct. 16.—The trial of James McNamara went ahead today joyfully, after having seemingly been caught in its first big snag.

"Could you set aside your opinion sufficiently to enable you to give a fair, impartial verdict?" asked Attorney Darrow, for the defense, of J. T. Nelson, the talesman, who has been under examination since the first day the case was called, and Nelson has been asked a hundred questions to elicit his views, and answered all of them without clearing up the situation.

"I don't just know," replied Nelson, and in an instant District Attorney Fredericks withdrew his opposition to the challenge made by the defense on account of bias.

"There is nothing else to do after that question and answer," said Fredericks. "The talesman has disqualified himself, so there is no use putting it up to the court."

In the course of Nelson's lengthy examination, he said he believed the Times building was blown up with dynamite, and he had an opinion concerning the guilt or innocence of McNamara. As the
